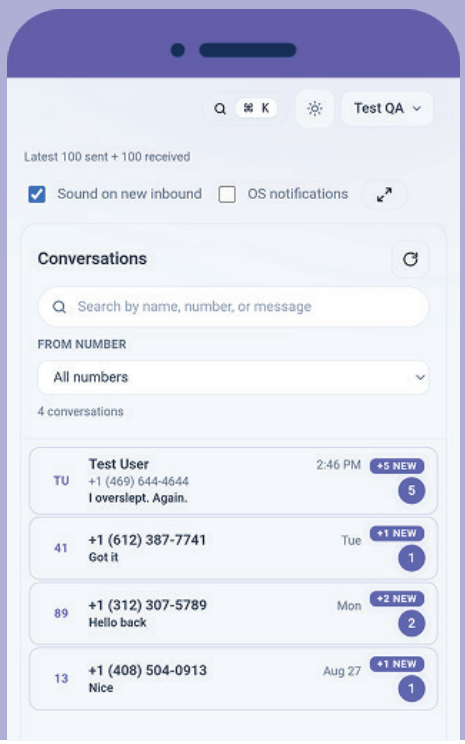
WHITE-LABEL BUSINESS MESSAGING

Two-Way SMS on Your Existing Business Number

Add a powerful, high-margin revenue stream to your voice and UCaaS portfolio. Voyant Business Messaging enables your business customers to send and receive text messages using their existing landlines or business numbers—all under your own brand.

Are you ready?



Why Partner with Voyant?

100% Private-Label Ready:
Deliver a fully branded, cohesive SMS application that keeps your identity front and center.

Boost ARPU & Stickiness:
Bundle messaging with your existing UCaaS plans to drive incremental monthly recurring revenue (MRR) and reduce customer churn.

Zero-Friction Voice Integration:
Text-enable existing voice lines without changing carriers, adding physical hardware, or purchasing extra lines.

Automated 10DLC Compliance:
Protect your customers with a guided, low-friction carrier registration wizard built directly into the onboarding flow.

High-Growth Industry Use Cases

Position this solution to your customers across high-touch verticals:

- **Retail:** Order status updates, curbside pickup coordinates, and instant FAQs.
- **Professional Services:** Appointment reminders, secure document requests, and client ollow-ups.
- **Field Services:** Dispatch arrival windows, real-time status updates, and on-site photos.

Core Platform Capabilities

Enable your customers to communicate on the channel their clients prefer, with an open rate of nearly 98%.

- **One Number for Everything**: Customers can call or text the exact same business phone number.
- **Consolidated Team Workflows**: A shared messaging portal allows multiple staff members to access, send, and respond to texts from a single inbox.
- **Guaranteed Delivery**: Built-in compliance tools ensure texts meet strict carrier standards, avoiding blocks and spam filters.
- **Multimedia Support**: Fully supports SMS to resolve customer inquiries faster.

Ready to Grow Your Business?

Partnering with Voyant means fast onboarding, dedicated channel support, and a highly reliable, white-label platform designed to scale with your brand.
